Automotive & Transportation

The ZeroTier secure network overlay empowers auto and transportation companies to seamlessly connect vehicles, employees, factories, hybrid/multi-cloud environments, and more with a simpler, safer, and stronger software-defined network solution:

- A vendor-agnostic platform that eliminates the need for expensive hardware.
- Empowers auto manufacturers to own and control their network stack with less telco reliance.
- Advanced network segmentation and flow rules for granular control.
- Instantly create global private networks with unlimited scale to allow for any market orientation and growth trajectory.
